

ANSON® Flowline Rental Equipment

NOV® offers an extensive range of ANSON flowline rental equipment suitable for both Standard and Sour Gas service. A comprehensive range of sizes and fittings allow NOV to supply an efficient service at a cost-effective price.

Rental Equipment

- API Gate Valves
- Plug Valves
- Check Valves
- Swivel Joints
- Cementing and Circulating Hoses
- Pup Joints
- Tees
- Elbows
- Crossovers

Most items are available off the shelf.

Competitive rates are available for short or long term rentals.

All ANSON flowline rental equipment has guaranteed material traceability and is recertified annually by the Det Norsk Veritas inspection authority. Every item has its own certificate detailing working pressure, service, description, asset number, and design temperature. All maintenance in-house reports remain on site for audit purposes but can be copied and supplied on request.

In addition, NOV can offer a specialized asset management facility. This can be tailored to suit the customer's requirements to ensure that the equipment is always fully traceable, certified, and maintained to specification. NOV also offers a full service facility for carrying out maintenance programs on all makes and types of equipment at a competitive price.
